Source: Inter-Agency Procurement Services Office (IAPSO), based on data collected from field offices and executing agencies.

a/ The data in this table are based on projects financed from the IPF, SPR, SMF/LDC, SIS and cost-sharing. They are provisional.

Note: The fact that table 7 and table 8 refer to project personnel has often been a source of some confusion because of differences in the totals of some columns. The confusion can be avoided if two points are kept in mind: (a) table 7 refers only to programme countries (i.e. countries receiving assistance from UNDP), while table 8 refers to both programmes and non-programme countries; and (b) project personnel data in table 7 refer to assignment (i.e., the number of assignments per staff in a specific country), while the data in table 8 show personnel by nationality. Given these points (programme only versus all countries and assignments versus nationality), the personnel total in the two tables are expected to be different.

For a quick guide to tables 7 and 8, use the chart below:

	International experts	National experts	UNV specialists	Fellowships
Table 7	more than table 8	same as table 8	more than table 8	less than table 8
Table 8	less than table 7	same as table 7	less than table 7	more than table 7

UNV specialists: This column refers to the number of assignments in a specific country during the year concerned. Because it is possible for a UNV specialist to have more than one assignment in a given year, the total in this column will be greater than that of the corresponding column of table 8, which refers to specialists by nationality.

International experts assigned: This column refers to the assignment of experts by country. Because it is possible for an expert to have more than one assignment during the year, the total in this column is expected to be greater than that in the corresponding column of table 8, which shows experts by nationality. All experts in both table 7 and table 8 are financed from sources given in footnote a/ in each table. Aside from experts fielded by executing agencies, operational assistance experts, associate experts and experts who were staff members of firms and organizations working under subcontracts to the participating /executing agencies are also included.

Fellowships awarded: "Fellowships" is defined broadly to mean formal training within and outside of the given country, seminars and ad hoc training courses organized by the project concerned. The data in this column refer to the number of fellowships awarded to a given programme country. On the other hand, the data in the corresponding column of table 8 refer to "fellowships placed", that is, they show the number of fellowships taking place (hence the term placements in table 8) in a given country. In other words, a given fellowship may be fulfilled in more than one country even though it was awarded to a single person. Hence, the total in table 8 may be greater than that in table 7.

Table 8. Project personnel by nationality, fellowship placements, equipment ordered and subcontracts executed by country or area of procurement in 1993 and 1994 a/

Source: Inter-Agency Procurement Services Office (IAPSO), based on data collected from field offices and executing agencies.

a/ The data in this table are based on projects financed from the IPF, SPR, SMF/LDC, BIS and cost-sharing and are provisional.

International experts, UNV specialists and fellowships: For an explanation of the differences between table 8 and table 7, as far as these issues are concerned, see the note to table 7. In particular, this note makes clear why the totals differ between the two tables for the columns on international experts, UNV specialists and equipment.

National experts: These experts comprise nationals of the host country, including nationals living abroad (non-resident nationals). This category of project personnel may also include expatriates who are residents of the host country and who are recruited in that country to carry out assignments similar to those carried out by internationally recruited professional project personnel. As a consequence, and because these experts are listed by nationality, it is not unusual to have national experts listed against a donor (not recipient) country. National experts in this table have been fielded by executing agencies or have worked under subcontract to the participating/executing agencies.

Equipment ordered: This column gives the dollar value, by country, of equipment ordered during the year.

Subcontracts awarded: The data in this column represent the dollar value, by country, of subcontracts awarded during the year. Note that subcontracts in 1994 are included as well as net additions to subcontracts awarded in 1993 (i.e. data were not reported for 1993).

For a quick guide to tables 7 and 8, see the chart below:

	International experts	National experts	UNV specialists	Fellowships
Table 7	more than table 8	same as table 8	more than table 8	less than table 8
Table 8	less than table 7	same as table 7	less than table 7	more than table 7
